

SPECIFICATIONS

A. 3 KVA AIR COOLED GASOLINE GENERATOR

I. GENERAL

- Must be industrial type/heavy duty Generator.
- Gasoline Type Generator
- Dual Output Voltage

II. TECHNICAL SPECIFICATIONS

- Rated Output Voltage (220-230 V)
- Rated DC output (12V)
- Rated Current (10-10.5 Amperes)
- Rated Speed 3600 RPM
- Protection Grade IP23M
- Frequency 60 Hz

III. STANDARDS/CERTIFICATION

- **ISO 8528** (Standard for test methods of engine-driven generating sets)
- **ISO 6826** (Reciprocating internal combustion engines — Fire protection)

B. PORTABLE BATTERY CHARGER

I. TECHNICAL SPECIFICATIONS

- Rated Voltage Output (12-24 V)

C. PORTABLE SUBMERSIBLE PUMP

I. TECHNICAL SPECIFICATIONS

- (1-2 HP 220 V Single Phase)
